### **Wide Format**

The Infinitis are wide format printers (99- and 72-inches wide / 2.5 and 1.8m) that use solvent-based ink, which makes them ideal to create economic, high quality, wide format printings, guaranteed for two-three years of outdoors exposure without laminating.

### **Variety of Media**

Infinitis print directly on vinyls, banners, one-way vision films, presentation papers, fabrics and PVC with resolution of 200 and 400 dpi, photographic quality.

### **Xaar<sup>®</sup> Piezoelectric**

Eight or four long-lasting Xaar<sup>®</sup> printheads, with 128 nozzles.

### **High Speed**

603 ft<sup>2</sup>/h (56 m<sup>2</sup>) in one pass and 301 ft<sup>2</sup>/h (28 m<sup>2</sup>) in two passes (according to printhead's number and format), with the cheapest printing cost per square feet in the industry.
